

MISSION MEMORY FOR SPACE

Stop rework. Ship missions AI cannot derail.

The Mission Memory Layer for AI-Native Space.

40%

PRODUCTIVITY LOST TO REWORK*Source: LIZA OS field engagements***TODAY****Best Effort AI**

Copilots guess. Standards drift.
Rework soars.

WITH LIZA OS**Instruction Layer**

LIZA OS executes only compliant,
proven instructions.

THE LOOP**01****Encode**

Turn procedures into
executable checks.

02**Govern**

Gate AI outputs against
standards.

03**Execute**

Automate tasks within
governed bounds.

04**Evolve**

Learn from builds.
Update knowledge.

WHY IT WORKS**STANDARDS LOCK**

Encodes ECSS and MAIT as
automated gates.

HALLUCINATION GUARD

Instruction gates prevent AI
making things up.

HERITAGE CAPTURE

Bottles senior judgment for
repeatable builds.

30-DAY MAIT PILOT**Codify · Govern · Prove**

Quantified rework reduction and a governed MAIT thread you can audit.

THE ASK**DOOR 1****Pilot Customer**

Run MAIT with LIZA OS. Pay only if
proven.

DOOR 2**Sovereign Partner**

Take a strategic stake. Anchor
governance for national missions.
